

FAGI-HUMBOLDT

Graduate Summer Course

A SPIRIT OF TRUST

Hegel on Agency

The Course accompanies Brandom's three lectures on the reason chapter of Hegel's Phenomenology of Spirit. Accordingly, the course will focus on Brandom's reading of Hegel. Topics will include: What makes something an intentional doing? What does thinking about practical reasoning add to Hegel's account of conceptual content? How does Hegel think that the heroic conception of agency can be re-achieved in a post-modern form of practical self-consciousness structured by Vernunft instead of Verstand?
