## **DFG Netzwerk *Praktisches Denken und gutes Handeln* (Practical Thought and Good Action)**

The DFG Netzwerk *Praktisches Denken und gutes Handeln* brings together 35 young researchers from Germany, Canada, Norway, the United States and Great Britain. The network meets twice a year for a period of three years. The proceedings will be published in two edited volumes on practical reason. The workshops take place in rotation at the University of Magdeburg (Summer 2012 & Spring 2014), the University of Leipzig (Spring 2013 & Summer 2014) and the University of Giessen (Summer 2013 & Spring 2015).

The workshops focus on different topics united under the title »Practical Thought and Good Action«. The exact topic of each next meeting will be settled at the preceding session. At each meeting there will be two guests whose work is seminal on the topic. The aim is to facilitate exchange of thought. So rather than having a series of formal talks, the workshops are focused on discussion. The papers discussed at the workshop will be distributed in advance to all participants of the workshop. No papers will be presented at the workshop as talks. After a short introduction by the respective author, each session will be devoted entirely to the discussion of the paper.
